WHY WASH WITH MARY KAY

Did you know women control 80% of all purchases made in the US? That creates a lot of power when we take our consumer dollar & invest in products, people & companies who align with our priorities & value systems.

I don't know what other cosmetic companies do with their money, but I do know what happens when you choose to wash your face with Mary Kay, Inc. products.

Did you know that Mary Kay is a private family owned 100% debt free company, celebrating 52 years with over 3 billion in sales a year & we are #1 in brand loyalty?

DID YOU KNOW THAT WHEN YOU WASH YOUR FACE WITH MARY KAY...

You are directly investing in a woman owned small business & impacting her dreams and legacies
In fact, if you choose Mary Kay products tonight you are investing in my college education.

You are supporting our local economy? The \$\$ you choose to spend with your MK consultant goes right back into our community! How many of you agree that teachers need a raise? How about the roads we travel everyday? Part of the money that builds those roads come right from our local business tax base.

You are supporting a company started by a woman named Mary Kay Ash? Mary Kay is a company created by a woman for women! Women who represent Mary Kay are paid what they're worth & noth what the job is worth. They are encouraged to keep the priorities of God first, family second, & career third, & do business by the Golden Rule.

5,100 employees here in the United States & a worldwide sales force of over 3.4 million in 35 countries thank you. You are helping them get up every day and design their dream life.

We are an environmentally friendly company. "PINK DOING GREEN", and that the majority of our products are manufactured right here in the U.S. Our manufacturing plant in Dallas & our 5 distribution centers in the U.S. create 0% landfill. Our compact exchange program has resulted in 400,000 trees being planted.

You are helping us stop animal testing in China! We were the first cosmetic company in the U.S. to declare a moratorium on animal testing. We were able to do this through in-vitro testing in order to make sure we sell a safe product. We pay for both tests here in the U.S. and now we are doing the same in China, so we can show the Chinese government that safe products can be produced without testing on animals.

There are women and families safe tonight in shelters all across the U.S., because of the 3 million dollars a year we donate to Domestic Violence Shelters around the country? We also donate over 1.2 million to Cancer research to eradicate cancers that affect women. In addition, our most recent partnership, called "Love is Respect" in a 24/7 "text for help" hotline where a young woman can text 22522 and find someone on the other end to explain what a healthy relationship should look like!

There are families impacted all across the globe? There are so many stories, but my favorite is one from China. At an event where new National Sales Directors came together, the #1 NSD is China was asked why she thinks Mary Kay, Inc. is growing so fast in China. Her response was "because of the money we make with Mary Kay, we can have more than on child".

AFTER KNOWING ALL OF THIS, I AM SURE YOU FEEL
GREAT ABOUT WASHING YOUR FACE WITH MARY KAY
